
Daycare, Preschool, Kinder and Out-of-School-Care Fee Sheet

The Alberta affordability grant for daycare is a significant government initiative designed to make quality child care more accessible and affordable for families across the province. Under this new funding model, which comes into effect on April 1, 2025, the Alberta Childcare Subsidy will be replaced by the Affordability Grant for children up to kindergarten age enrolled in licensed child care programs. This means that all eligible families will pay a standardized, reduced monthly fee for their child's care, regardless of their income level. By making licensed child care more affordable, the Alberta government hopes to support working parents, promote early childhood development, and contribute to the overall economic growth of the province.

As opposed to a flat monthly parent fee, parents with children in preschool programs will instead have a reduction of up to \$100 off their preschool program's stated monthly child care fees.

The Alberta Childcare Subsidy will still be available for eligible families with school-age children attending licensed after-school care programs. To assist parents with the cost of full-day child care for children in Grades 1 to 6 in the summer months, subsidy rates will increase in July and August. More information can be found at www.alberta.ca/child-care-subsidy.

A non-refundable \$200.00 deposit is required to secure each child's space and guarantees their start date.

Van transportation

Van transportation through the daycare is available for OSC and Kindergarten children, depending on school location and space availability. Transportation fees are \$75.00 per month. Departure times from the daycare may vary based on factors such as transportation routes, school schedules, weather conditions, and traffic.
